

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of media consolidation.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our democracy. Instead of something produced at "News Central" far away, it's more important that we see real people from our own communities and more substantive news about issues that matter.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.

I realize we are losing our country now. I saw last time how you folks did not give a damn about monopolization of power & we now have a 39% cap on media control to fit into the already illegal percentages some of these corporations controlled. The 5 of you are in extremely powerful positions, including you Michael Powell. The way I see it now is that I am in fact witnessing the fall of the USA. I suppose that is what you wish for based on how you have been making decisions lately. Well I wish to congratulate you on your most wonderful contribution to creating the Fall of These United States!!! You should be ever so proud of yourselves don't you think? My God look how much power you have! Isn't it wonderful how much power you have! It doesn't matter if you use your power in a positive way or a negative way...just look how much POWER you have. Your children & grandchildren will look back through the history books & say, wow!, my Dad or Mom was on the FCC board just before the fall of the USA & they helped accomplish that. Again I wish to congratulate you on how much power you have & how you plan to use it! Now...the only problem is that the next step in a Fall is that a revolution will unfold. People will die etc. etc. etc...Boy I can't wait. Can You? It will be most exciting I think. Like "Bombs Blasting Midair!!!" My God we will be the privileged ones to see the most beautiful light show we have ever seen! I am looking forward to it, aren't you? I know I am being very sarcastic in my writings here. Now, for reality. What the hell is wrong you folks in the FCC? Do you not know what the hell is going on? Are you getting paid a healthy commission or are they threatening you? Is it greed or fear? I haven't figured that one out yet. The revolution must begin Now with You in as peaceful revolution as possible. Or we can choose a bloody one if things such as this are not nipped in the bud. Please study the rise of dictatorships. They don't care what party they are named under. It just so happened that they got in through the Republican name. And don't think the Democrats don't have their own little dictators in line waiting. Dictators are constantly trying to rise in every damn country all the time at every moment. I am not saying George Bush himself is a dictator but

he's certainly going down that path. But the LAWS that are set up in years previous to a dictatorship is what one should be looking at. I see our laws setting us up for a dictatorship very fast. And the #1 rule in any dictatorship is to get control of the media & then propagandize the hell out of it. I don't know who you people are or why you are doing what you are doing. But this type of behavior has got to stop. The FCC was created as a PUBLIC service. Obviously it has transformed into a CORPORATE service. The revolution is basically between the People & the Corporations. Hell I have to make a decision myself too. The Mutual Funds I invest in are invested in so many of these corporations so I too am contributing in my own way to the Fall of the USA. Lets truly be proud of ourselves & do the right thing. I don't know if you guys like the USA or care about it. If you don't care, then so mote it be. If you do care, listen to the people crying out to you telling you to do your job the way you were intended to do. We are not asking you any more than that now are we? Keep in mind the corporations are asking you to do illegal things which you are not supposed to be doing. Please reread what the FCC's purpose is & get yourselves back on track. That is all I am asking of you. Countries rise & fall all the time. Remember the #1 thing they do is take over the Media in order to promote their propaganda. My one question right now is whether you guys care for the USA or not. If you do, listen to the people. If you don't, then cast your votes & we will see a revolution unfold very quickly. That's all there is to it. I myself prefer peaceful revolutions & if it turns bloody, well, then history repeats itself. Just to let you know I also believe in past lives & karma & Illuminati/Globalists & if we all wish to see death & destruction over again, then our wish just may come true. What do you in fact wish for? Death or Life? Anyway, all the people are asking of you is that you do your job. Or has Sinclair got a hold on you? Only you know that answer I suppose. I look at each individual & you make your own decisions & you can't blame your co-chairman for the decision you made. We are all making decisions every day & if you believe in karma then each decision is a mark towards your karmic debt. I honestly do not know why the Illuminati missed having in their teachings the concept of karma. That blows my mind that they are not aware of that one. I know there are good Illuminati & bad Illuminati & the bad are in power now. The teachings teach about POWER. Power is damn easy to get my friends. It is what you do with it that matters. That is the true test. Power within...power without...etc.etc.etc..... Past lives...to be very powerful...the more power you have over others...the more powerful the energy becomes...if you do a very negative powerful move over a mass amount of people because you have now gained a lot of power, where do you think that leaves you karmically? Why do you think so many people are afraid of gaining power? They in fact know that they themselves can easily abuse the power & will end up with a huge karmic debt. Now, if used in a positive manner it creates a huge karmic positive energy. For some reason in this life you have chosen

a very powerful position. Use it wisely for yourself.
Don't think about others. Your karmic debt is actually
your own problem. Good luck to you all in this crazy
& wonderful wheel of life!!!!:):):):):):):)
